This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PREFACE.

THE Committee, consisting of Brothers John Bernard Ekeley, Mu, '91; A. Norton Brockway, *T*, '57; John Henry Safford, *E*, '84; Herbert Budington Wilcox, *Φ*, '98, and Charles Hubbard Judd, *Γ Φ*, '94, appointed by the Council to prepare this volume, has completed the task assigned it, and now sends forth the Catalogue of 1900 as the result of its labor.

Brother Ekeley, while Catalogue Editor, performed the greater part of the preliminary and necessary work, occupying the position until June, 1900, when he resigned to pursue a course of study in Europe, and Dr. Brockway was elected Permanent Editor of the Catalogue, attending to many minor details and correcting the proof.

The edition of 1890 was so complete and exhaustive that the Council decided to have the present Catalogue exhibit the full name, occupation, and address of each member, without further particulars. Very strenuous efforts have been made to obtain the necessary information from the Chapters and other sources, but the Chapters are held responsible, when full information is not published.

It is impossible to publish a perfect Catalogue; and when errors are discovered, the Editor asks that members be as patient and charitable as possible. It has been no inconsiderable work to prepare and present such a catalogue as this, but it has been a labor of love and loyalty to one of the best of College Fraternities.

A. NORTON BROCKWAY, *T*, '57,
Catalogue Editor.
